

Asia Global Tracking GPS Tracking Solution

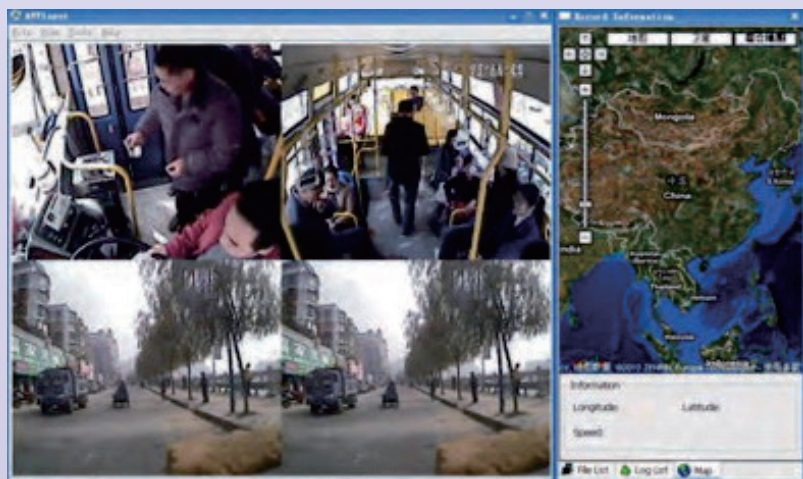

AGT-D4 Mobile DVR with 3G/4G/WiFi GPS Tracker

AGT-D4 is the compact mobile digital video recorder (MDVR), full-featured recording system that uses a Hard Drive as a storage device. The recorder unit and associated accessories are specifically designed for operation in a mobile environment.

The **AGT-D4** system, used in conjunction with the cameras, records up to four channels of full-motion video and audio data to a laptop type Hard Drive (2.5" SATA). The firmware-driven menu system provides a simple method for configuring the unit's operation as well as searching for and viewing previously recorded AV records.

Features with 3G/4G Network

- o Remotely Live view & GPS tracking
- o GPS track playback
- o Geo-fencing with optional GPS receiver
- o One picture will be sent to server as well as email alert when an alarm is triggered
- o Reports for Speed, Alarm, Stop, Geo-fencing, Fuel, etc.

Specifications

- o High Definition 1080P/720P MDVR
- o OS: Linux 2.6
- o Start up Time: 25 seconds (From power on to recording)
- o Storage: 2.5" Hard Drive or SSD (up to 2TB), SD Card (up to 128GB)
- o Video System: H.264 Main/High Profile, HD 1080p30/720p30 Recording for each channel
- o Voltage Input: 8 V - 32 V DC
- o Voltage Output: 12V/1.5A (4 channels)
- o Video Input: Maximum 8 x 1080p30/720p30 camera input
- o Live Video View: PC / Notebook / iPhone / iPad / Android Pad / Android Phone
- o Preview: 1 image / 4 images (Switch for 8ch)
- o Standard Stream: ISO 14496-10
- o Recording Resolution: Selectable (1920x1080, 1280x720, 960x540)
- o Recording: Supports normal, schedule, alarm recording and continuous
- o Video Compression: H.264 (High profile up to level 4.1)
- o Max fps (total): 30fps@1080p/channel
- o Audio Input: 8 channels
- o Audio Compression: AAC (16bits, 48KHz)
- o Network WiFi: Build in 802.11b/g/n AP, speed up to 300Mbps
- o Network Protocol: TCP/IP
- o Network Communication: 4G/3G/EDGE/GPRS/CDMA
- o Alarm & Sensor:-
Inputs: 3 Alarm, 1 ignition, 1 Panic button, G-Sensor
Outputs: 1 Beeper, Alarm LED, Email
- o Power Supply: Average 2.0W (without SD/SSD/HDD and cameras)
- o Dimension: 14.3cm x 13.2cm x 3cm
- o Weight: 1.08 Kgs
- o 3 Digital Inputs, 2 Outputs
- o 2 Analog Input Detection
- o 1 RS232 Interface (for connecting to headset/RFID reader/ Camera/ LCD display/ LED display)
- o 1 USB Port
